## DIPLOMA FOR IT PROFESSIONALS

As part of your programme, we will:

If having a high level of IT competence is critical to your role, then this is the programme for you. From IT focussed managers to help desk professionals, there are over 100 different modules to choose from.

- Create you a tailored and individual learning plan
- Provide one-to-one mentoring from a dedicated member of the Bragd team
- Offer a blended learning approach which can include virtual or face-to-face workshops, guided learning and 24/7 access to our e-portfolio system
- Use trainers and assessors who are from the real world. They've been there, done that and got the t-shirt.

### SCQF LEVEL 6 OR 8

Directed learning, 1-2-1 virtual sessions and on-the-job tasks and activities develop real world skills - all supported by our IT and tech' mentors.

### 12 MONTHS

This qualification usually takes around 12 months to complete including certification by SQA.

### 12 MODULES

Twelve knowledge and performance modules specifically selected to meet each individual candidates needs and wants ensuring a fit-for-purpose programme for everyone.

Call Bragd now on 01383 630 444 or visit [www.bragd.com](http://www.bragd.com) for more information.

## The Art of Apprenticeships

This apprenticeship is ideal for those working in the IT industry, but is also suitable for those who don't work in the IT sector, but need an in depth level of IT competence to do their job.

If you start with the SCQF Level 6 programme, you will also have the option to progress onto the SCQF Level 8 programme if it is suitable for you to do so.

## MORE INFORMATION

This programme will develop the knowledge, skills and competence needed to comfortably use a wide range of popular software and digital technologies and handle a range of IT-based activities such as:

- Investigating and defining IT requirements
- Providing technical support and guidance
- Developing & managing IT systems
- Planning and building networked systems.

## YOU WILL COMPLETE

1. Twelve core modules covering the key knowledge and skills needed to be successful as an IT competent professional

2. A work-based portfolio showcasing how you've demonstrated the skills you've learnt in real work projects

3. Activities specially designed to achieve the five core skills needed to acquire funding in Scotland.

These core skills are working with others, problem-solving, numeracy, communication and ICT.

## THE CORE MODULES INCLUDED IN THIS PROGRAMME ARE:

- The practical uses of a wide range of collaborative Microsoft and non-Microsoft based applications
- Principles of IT systems architecture and development
- Principles of information governance
- Delivering technical advice and guidance
- Management of IT systems, networks and processes.

Our success rates talk for themselves but talk is cheap. It's the doing that counts and we can do.
