INFORMATION SECURITY

This programme is designed for people working in the world of information and cyber security, who need excellent skills in identifying and responding to cyber threats, attacks and hazards.

As part of your programme, we will:

• Create you a tailored and individual learning plan

• Provide one-to-one mentoring from a dedicated member of the Bragd team

• Offer a blended learning approach which can include virtual or face-to-face workshops, guided learning and 24/7 access to our e-portfolio system

• Use trainers and assessors who are from the real world. They've been there, done that and got the t-shirt.

LEVEL 3
Directed learning, 1-2-1 virtual sessions and on-the-job tasks and activities develop real world skills - all supported by our tech' and cyber security mentors.

12 MONTHS
This qualification usually takes around 12 months to complete including a Level 3 diploma.

12 MODULES
Twelve knowledge and performance modules specifically selected to meet each individual candidates needs and wants ensuring a fit-for- purpose programme for everyone.

Call Bragd now on 01173 258 676 or visit www.bragd.com for more information.

Bragd

The Art of Apprenticeships

This apprenticeship for those responsible for providing first line cyber security support and will equip you with the critical skills needed to excel in a wide range of information and cyber security positions.

You will also achieve the Diploma for Information Security Professionals.

INFORMATION SECURITY

MORE INFORMATION

Using practical activities, simulations and labs this programme will develop the wide range of competence needed by the cyber security professional.

YOU WILL COMPLETE

1. Eleven bite-sized modules teaching theory and practical applications through a combination of online learning and virtual or practical classroom workshops.

2. A work-focused project to give you the chance to apply what you have learnt straight into your real work context - with full support from our team of course

3. A portfolio showcasing how you've implemented and demonstrated the skills you've learnt in real work projects

4. Activities specially designed to achieve the three essential skills needed to acquire funding in Wales.

These essential skills are communication, application of numbers and digital literacy.

THE CORE MODULES INCLUDED IN THIS PROGRAMME ARE:

• Network systems and architecture
• Network security and vulnerabilities
• Common methods of attack
• Data security and encription
• Human risk and personal security
• Software security and assurance
• Risk mitigation and managment
• Pen' testing and ethical hacking.

Our success rates talk for themselves but talk is cheap. It's the doing that counts and we can do.
