NETWORK ENGINEER

During your programme
you will learn how to:

- Design, configure and maintain appropriate physical and virtual network architectures and systems
- Take a wider view of organisational objectives and support the implementation of the IT strategy
- Investigate, troubleshoot and resolve technical performance issues using diagnostic tools in a variety of network configurations
- Ensure the ongoing professional development of the IT team to maintain skills and capabilities.

This apprenticeship will equip you with the critical skills needed to excel in a wide range of IT positions such as Network Administrator, Systems Engineer, Dynamic Network Engineer and Desk/Field Based Engineer.

LEVEL 4

Combines online learning, virtual or classroom training and on-the-job experience to develop real world skills using innovative technology.

14 MONTHS

Taught and supported by experts who've been there, done that & got the t-shirt, followed by mentoring through your end-point assessment.

6 MODULES

Six easy to follow modules teaching theory and practical applications, tailored towards the individual needs of the candidate.

Call Bragd now on 01173 258 676 or visit www.bragd.co.uk for more information.

Bragd

The Art of Apprenticeships

On successful completion of your apprenticeship, you will also gain the following qualifications:

- Level 4 Diploma in Networking Principles
- Level 4 Diploma in Network Security
- Level 4 Diploma in Network Systems and Architecture.

You will have the option to apply for BCS membership and Professional RIT Tech registration.

WHAT DOES 10:20:70 MEAN?

To give you the best possible apprenticeship experience, we use a 10:20:70 structure to plan your 'off-the-job' time as follows:

10 10% is made up of virtual or face-to-face workshops that provide an interactive 'kick start' to each topic

20% is made up of online study using our virtual learning platform as well as individual coaching and mentoring sessions and self directed learning

70 70% is made up of a range of 'knowledge-into-practice' work-based activities and projects, where we work with you to apply your new knowledge and skills in the real world.

This all prepares you for a smooth transition into your end point assessment. **What's not to like?**

NETWORK ENGINEER

AS PART OF YOUR PROGRAMME, WE WILL ALSO:

Develop you holistically as a person - building your confidence and giving you crucial career skills that will enable you to perform at your best - every time. These can include emotional intelligence, project management, effective communication and stakeholder engagement.

Our success rates talk for themselves but talk is cheap. It's the doing that counts and we can do.

Contact the Bragd team by emailing hello@bragd.co.uk or by calling 01173 258 676 to find out more.
